

### 1504 | Kerb Stone Handle

The 1504 Kerb stone handle is designed for use in pairs in order to move various kerb stones thanks to its large variable jaw width. Its simple design ensures safe and efficient movement of kerb stones from point of off load to placement.

Product Code	SWL (kg)	Jaw Width (mm)	Internal Depth (mm)	Length (mm)	Weight (kg)
1504	150	0-670	200	150	4

### 1505 | Universal Kerb Handle

The 1505 Universal Kerb Handle is designed for use by two operatives to move various kerb stones thanks to its large variable jaw width. Its simple design ensures safe and efficient movement of kerb stones from point of load to placement.

Product Code	SWL (kg)	Jaw Width (mm)	Internal Depth (mm)	Length (mm)	Weight (kg)
1505.1	200	0-600	220	200	12
