Laying of Landscaping Elements

FTZ-UNI-15

FTZ-MAXI-25

Grab for Prefabricated Concrete Products FTZ

FTZ-I: special compact clamp for laying heavy granit kerbs.

FTZ-BB: designed kerb stones with high concave section for bus stops. („Kassel Kerb“)

FTZ-UNI: Universal clamp for all kind of precast elements.

FTZ-MAXI: As FTZ-UNI but with a very large gripping range.

- Gripping width adjustment by spring loaded bolt. Bolt can not get lost.
- Suspension bolt for lifting device.
- Automatic release for fully automatic switch over from „full“ to „empty“.
- Exchangeable rubber grippers.
- With handles to guide the grab.
- Durable surface protection by galvanizing.

Type	Length of Gripper mm	Inside Height mm	Dead Weight kg	Gripping Range mm (in)	Working Load Limit/WLL kg	Order-Number
FTZ-I	420	170	55	50 – 520	900	53100120
FTZ-BB	420	290	60	50 – 480	900	53100202
FTZ-UNI-15	420	255	88	0 – 750	1,500	53100256
FTZ-UNI-25	420	255	119	0 – 750	2,500	53100313
FTZ-MAXI-25	420	255	132	200 – 1,200	2,500	53100344
FTZ-UNI-50	720	200	245	0 – 850	5,000	53100362
FTZ-MAXI-50	720	240	260	400 – 1,250	5,000	53100363

Accessories

Adapter for Kassel Kerb Stone A-FTZ-KB: for FTZ-UNI-15 to extend gripping depth on one side to 290 mm.
